About me

I'm a recent Design graduate from the University of San Francisco with a background in marketing, social media, and creative content. I have hands-on experience building brands, creating content, managing social media, running digital ads, and using performance insights to improve marketing. I enjoy combining creative ideas with strategy to create content that connects with audiences and drives results.

Experience

Brand/Graphic Designer

(June 2026 – present)

After Hrs – San Francisco, CA

- Design event flyers, graphics, and promotional materials
- Create and edit short-form video content for social media promotion
- Manage social media content, posting, and trend research
- Build and maintain the brand's visual identity
- Independently manage all marketing from start to finish
- Plan and promote events through social media, Google, and Instagram ads

Graphic Designer

(Dec 2025 – May 2025) internship

Faishion.ai – San Francisco, CA

- Designed promotional graphics and short-form videos for Instagram and TikTok from concept to final execution.
- Used AI tools to speed up content creation while refining assets to maintain a polished, professional, and consistent brand style.
- Created marketing materials that strengthened and developed the brand's visual identity across digital platforms.
- Managed the social media content calendar and maintained a consistent brand presence.
- Analyzed social media performance to improve content strategy and audience engagement.
- Collaborated with the marketing team on digital campaigns and con-

Ux/UI Designer

(Sep 2023 – Oct 2024)

Pinnacle Real Estate – San Mateo, CA

- Led the end-to-end website design process, from wireframing and UX planning to final visual design and development
- Designed the full website experience with a focus on clear navigation, usability, and a cohesive brand identity
- Created wireframes and translated concepts into high-fidelity website designs
- Developed both the front-end and back-end of the website, bringing the designs to life through code
- Managed web hosting and website setup to take the project from design to a live, functioning website
- Balanced UX, visual design, and technical development to create a cohesive and user-friendly website
